

Unitary Councillor's December Report

Cleobury Mortimer

I met with Andy Keyland and Jason Davis from Highways, at the Hurst to discuss what can be done about the problem with vehicles hitting a local residents wall. A few suggestions were put forward, none seemed appropriate or suitable to the owners of the wall. Whilst I was there, I could see for myself the problems encountered, ie. Speeding cars etc. Andy said that Simon D'vali was the person to contact regarding carrying out a traffic survey, which I have requested.

I attended the Remembrance Service with my husband David, and I laid a wreath. It was a very emotional, very well organised service.

I had a very successful meeting with Chris Woodward and Sian Powell regarding obtaining a donation from the Woodward Educational Trust for the Cleobury Mortimer Sports Centre.

At the farmers market councillor surgery, I had a few queries, one of which was road subsidence on the back road to Tenbury from Cleobury, which I have reported on fixmystreet and chased up with Andy Keyland.

I was pleased to see so many supporters attend the Sports Centre meeting at the church last night (Thursday). Sian Powell gave an update of the finances and the stage they are at with the fundraising. I believe it was £26,000 so far which is an amazing achievement! But there is still much more needed.

I have been in conversation and emailing with PC Jade Ives and PCSO Jaqui Fletcher regarding setting up a speedwatch, as I have been contacted by several local residents, about the speed of traffic through the town. The speed limit is a compulsory 20 mph from Pinkham turn up to the top of High street. I am hopeful that there will be enough volunteers (6) to be able to make this possible. The volunteers need to be vetted by the police. I am hopeful the Town Council will be able to carry this forward.

Coreley

I have reported the tree and fence to Andy Keyland that was being chased up by the Clerk. Unfortunately, no more feedback from the monitoring of the sheep being killed.

Boraston

It was my pleasure to attend the Boraston parish meeting and to meet so many keen parishioners.

Neen Sollars and Milson

I have received an email regarding the road being closed on 1st December, for Kier to remove debris from the No. 1 bridge at the Rea, just below Neen Sollars.

Shropshire County Council

Shropshire county council are to apply to the government for a loan which is stop the council going into emergency measures, which is to be avoided at all cost.
